

**Selected references on Pacific yews and taxol  
David Pilz, (PilzWald), as of January 20, 2002**

Caveats - This list of citations is not comprehensive. I have included mostly references to *Taxus brevifolia*, articles published by individuals I know, major *Taxus* and Taxol tomes, or publications that touch on what I consider interesting related topics. All were published since 1990. Most of the books listed here have good bibliographies as well. I am unable to provide copies.
